Rusty Peevler stated that he has 4 graders down at the present time. He is going to take two of the graders to make one good one. He also has a pickup truck in the shop at Warrick Motor Company due to diagnostics. He also has an end loader down due to celluloid in the pump. He also is in need of a tractor/trailer as INDOT has ruled that ours is unsafe on the Highway. The safety pins come undone.

Rusty Peevler also reported as per Purdue we should have three (3) men per township. We have 11 townships. We currently have 16 men and are not able to keep up. They need more funding. He has two openings and would like to fill those vacancies.

Steve stated that the City of Attica does not want to expand and they have outgrown the room. A temporary fix can be obtained by buying a portable air conditioner.

Steve reported that he is in early stages of talks with Montgomery County in regards to a multiple county radio dispatch center. Geography is a big issue as the counties would probably all have to have the same mapping system. The Commissioners stated that they have not forgotten about his building and have some ideas in mind.

Steve Harvey also asked if he could approach the County Attorney in regards to an Ordinance in relation to the fake 911 calls that his center receives. He would like to see a fine in place after a certain number of calls. He will bring to the next meeting stats of the erroneous calls.
